

West Valley City

West Valley City, Utah

West Valley City, a suburb of Salt Lake City and the second largest city in Utah, strives to support Guard and Reserve employees at every level of the organization and publicly. West Valley City provides full pay and benefits for 110 hours per year for Guard and Reserve employees, and differential pay and all benefits for the entire period of military service, regardless of duration. Department leaders maintain contact with and provide a wide range of assistance to families of deployed employees. Beyond direct support to Guard and Reserve employees, the City actively recruits employees from the ranks of National Guard and Reserve organizations, military families and veterans. The City recognizes the service and sacrifices of their military employees on their Honor Wall, located at City Hall, at annual employee training events, employee holiday parties, and on Veterans Day. West Valley City also supports service members by organizing city sponsored care package projects with postage paid by city employees and city leaders. <https://wvcut.applicantpro.com/jobs/>
